

Your Partners
in Fire Protection

A dependable partner with expert knowledge
for your fire protection.

PT NAM INDONESIA

**PT NAM Indonesia is a confident partner
for design, supply, supervision, installation,
commissioning and supplies reliable protection
solutions according to your requirement
and your budget.**

Company Overview

PT NAM INDONESIA

System Design and Supply

PT NAM Indonesia is experienced to provide design & engineering service with turnkey capabilities to supply fire protection solutions & marine systems with the most professional and cost-effective service.

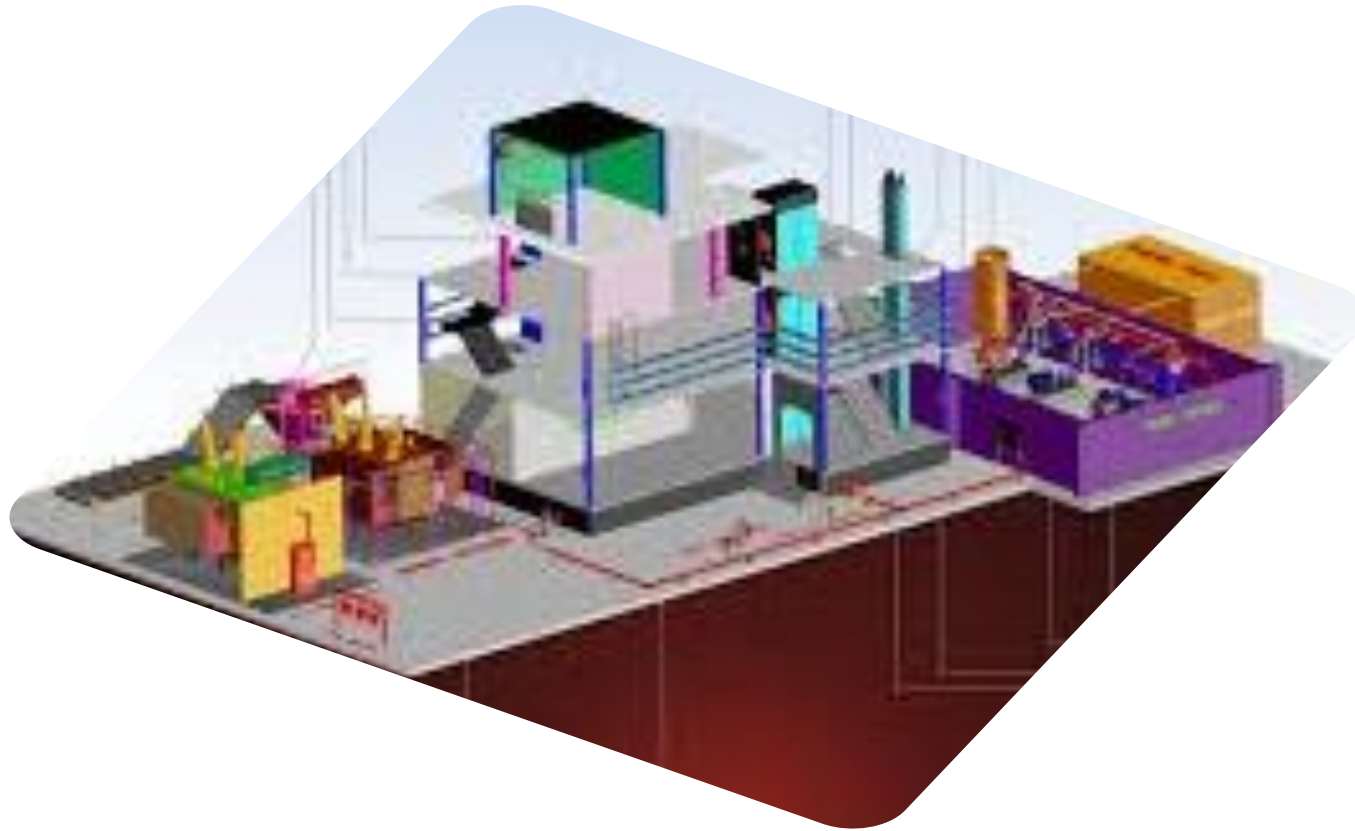

Project Management

Our team consists of certified and experienced people who are committed to project and client success. We utilize proven project execution practices to ensure effective project delivery.

PT NAM Indonesia works closely with the client and liaises with all stakeholders to completing the project on time, within budget, and meet minimum safety standards.

Company Overview

Installation, Testing & Commissioning

Backed by the experienced staffs, we are also engaged in Installing, Testing & Commissioning of various fire protection solutions.

The work will be carried out by a team of professional experts who deliver a quality job to ensure maximum client's satisfaction.

After Sales Service

You can rely on us to provide a comprehensive after sales service and support package that is customized to your needs.

Product Range

As distribution channel of IMI plc, **PT NAM Indonesia** is committed to provide high quality products that meet both our customers' expectations and the international standards for pneumatic and fluid control equipments.

Brands under the umbrella of IMI plc are IMI Norgren, IMI Buschjost, IMI FAS, IMI Herion and IMI Maxseal.

Actuators

Pneumatic actuators, often referred to as pneumatic cylinders or pneumatic drives, are the products used to provide motion and force to industrial automation applications. We offer a vast array of actuators – from full-size to compact cylinders, grippers, slide tables, rod-less cylinders, rotary actuators, switches and more.

Air Preparation Products

Correct air preparation is essential for best performance. We offer a full air preparation line air preparation equipment, from our advanced FRLs units to individual components including filters, regulators, and lubricators.

Product Range

Pressure Sensing

The pressure sensing devices provide a range of different options for converting pressure changes into an electrical signal to monitor a process pressure when a set pressure has been reached. We offer various types of pressure sensing devices to meet various customer needs for measuring liquid or gas pressure.

Vacuum Components

Vacuum is used in Industrial Automation applications, especially handling & packaging and manufacturing. Vacuum allows varied size and shaped objects to be picked up or held without any damage or bruising to the component.

Pneumatic Valves

In industrial automation, solenoid valve can be as simple or as complex as your application requires.

Fittings & Tubings

Fittings and tubing are absolutely essential to any pneumatic system, since nothing will operate without them.

Product Range

KITZ VALVES

Type : Gate Valve; Globe Valve ; Check Valve & Needle Valve
Sizes : ½" ~ 2"
End Type : Threaded; SWE; BWE & Flanged
Material : Available in Carbon Steel & Stainless Steel
Class : ANSI 150/ 300/ 600 & 1500

Product Range

SHORITSU VALVES

Type : Gate Valve; Globe Valve ; Check Valve & Needle Valve
Sizes : ½" ~ 2"
End Type : Threaded; SWE; BWE & Flanged
Material : Available in Carbon Steel & Stainless Steel
Class : ANSI 150/ 300/ 600 & 1500

Product Range

EMACO VALVES

Type : Gate Valve; Globe Valve ; Check Valve & Needle Valve
Sizes : ½" ~ 2"
End Type : Threaded; SWE; BWE & Flanged
Material : Available in Carbon Steel & Stainless Steel
Class : ANSI 150/ 300/ 600 & 1500

Product Range

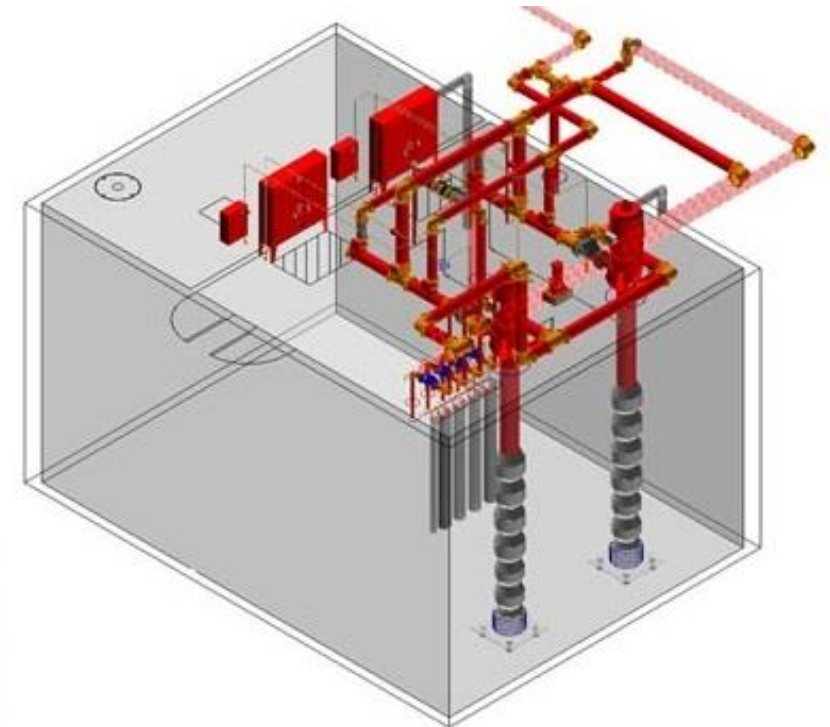

Fire Protection Systems

PT NAM Indonesia offers efficient turnaround at every step, from design and installation through system acceptance and after-installation service.

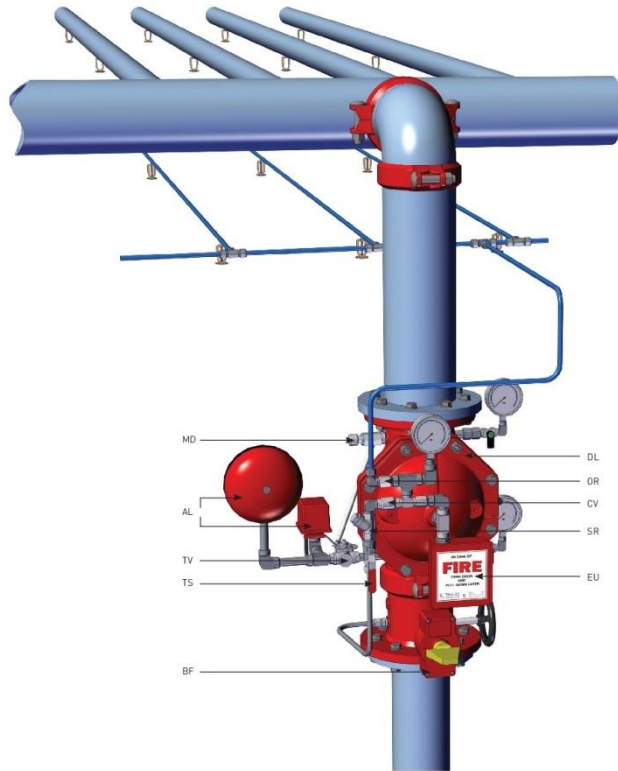

Unlike some suppliers, our capabilities are not limited to particular brands or types of equipment.

Our fire protection solutions include the followings:

- Pump Units
- Fire-fighting Equipments
- Water Spray/ Sprinkler Systems
- Foam Systems
- Gaseous Suppression Systems (CO₂, Inert Gases & Halocarbon Agents)
- Dry Chemical Systems
- Wet Chemical Kitchen Suppression Systems
- Fire Extinguishers
- Fire Alarm Systems
- Fire & Gas Detection Systems

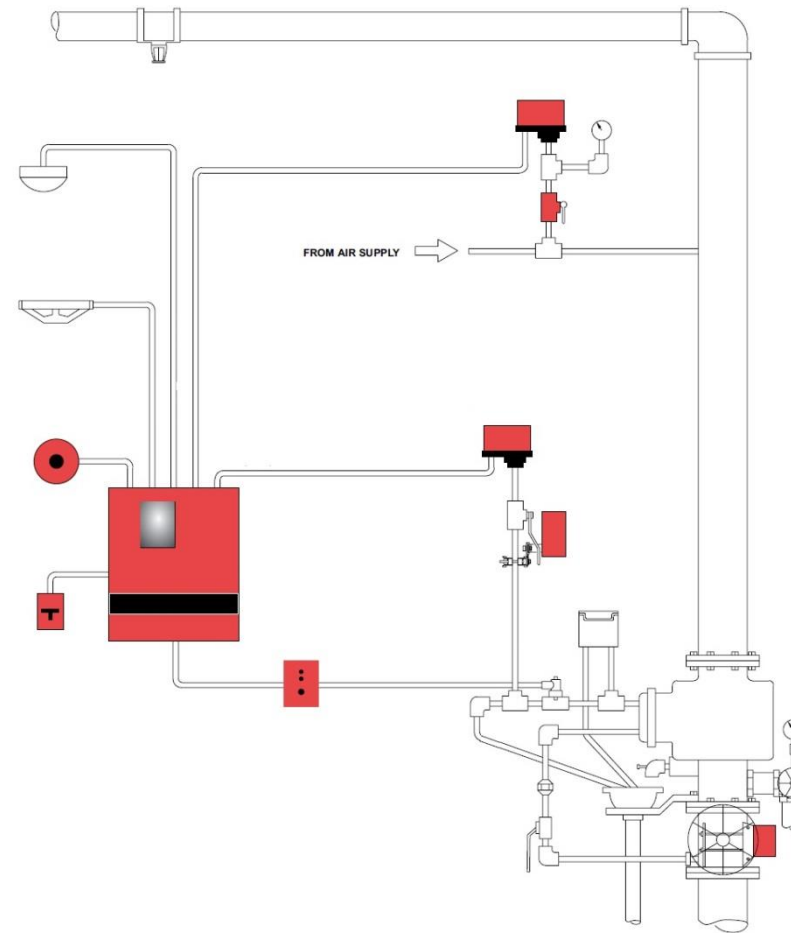

Product Range

BF - Butterfly valve
DL - FDV Deluge valve
UD - Upstream drain valve
DD - Downstream drain valve
AL - Acoustic & Electric alarms
TS Trim supply valve
SR - "Y" strainer
CV - Check valve
OR - Orifice
MD - MADV - Manual Automatic Drain Valve
TV - Alarm test valve
EU - Emergency Manual Unit

DELUGE SYSTEMS

SPRINKLER SYSTEMS

Product Range

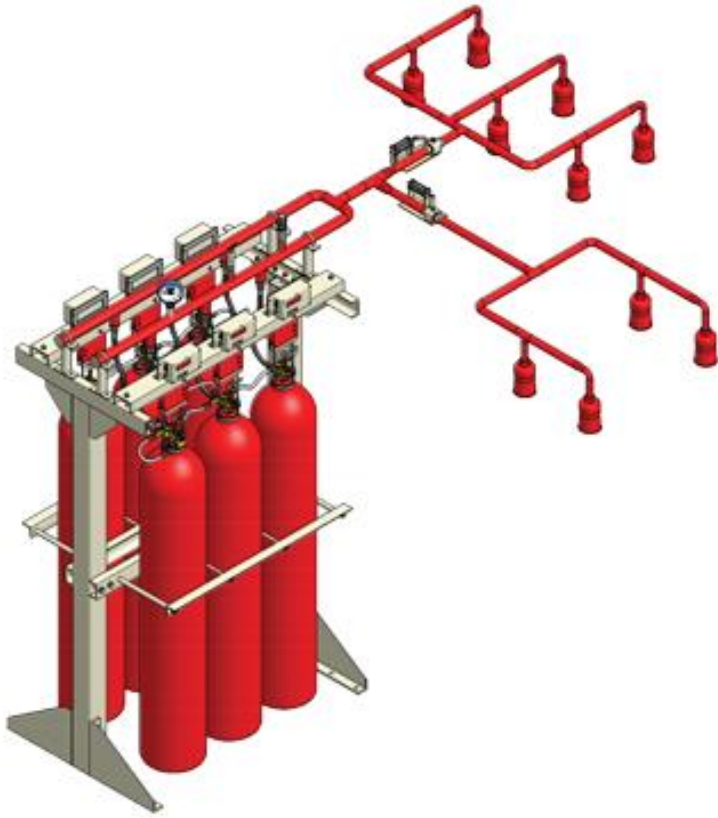

FOAM SYSTEMS

DRY CHEMICAL SKIDS

Product Range

HPCO₂ SYSTEMS

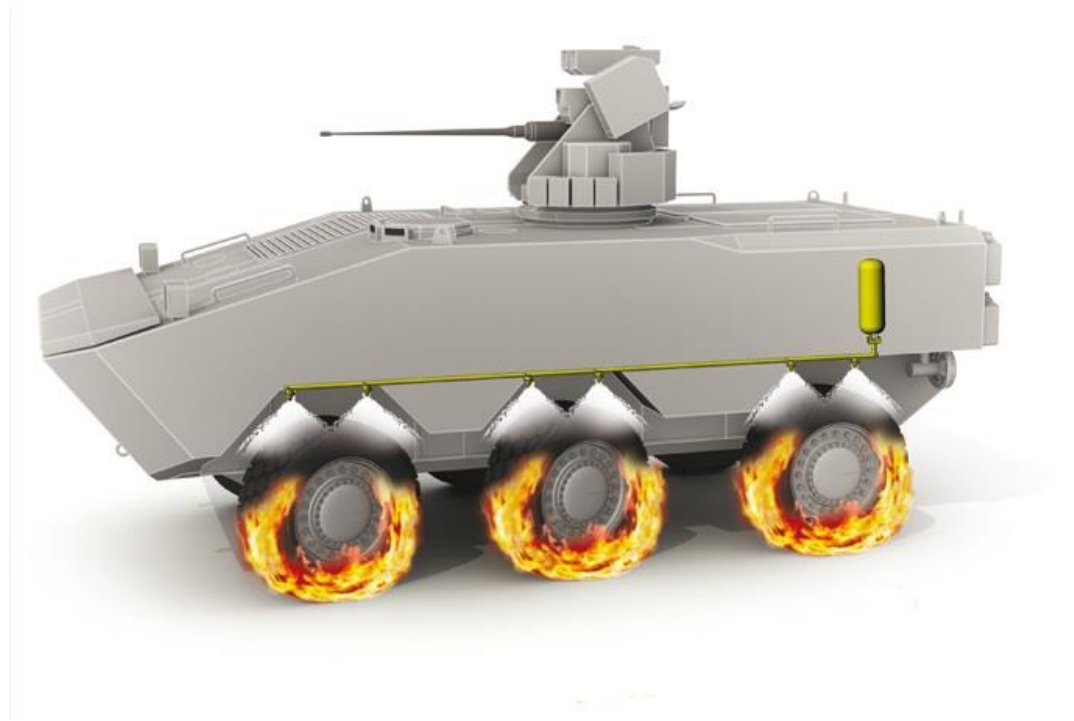

CLEAN AGENT SYSTEMS

Product Range

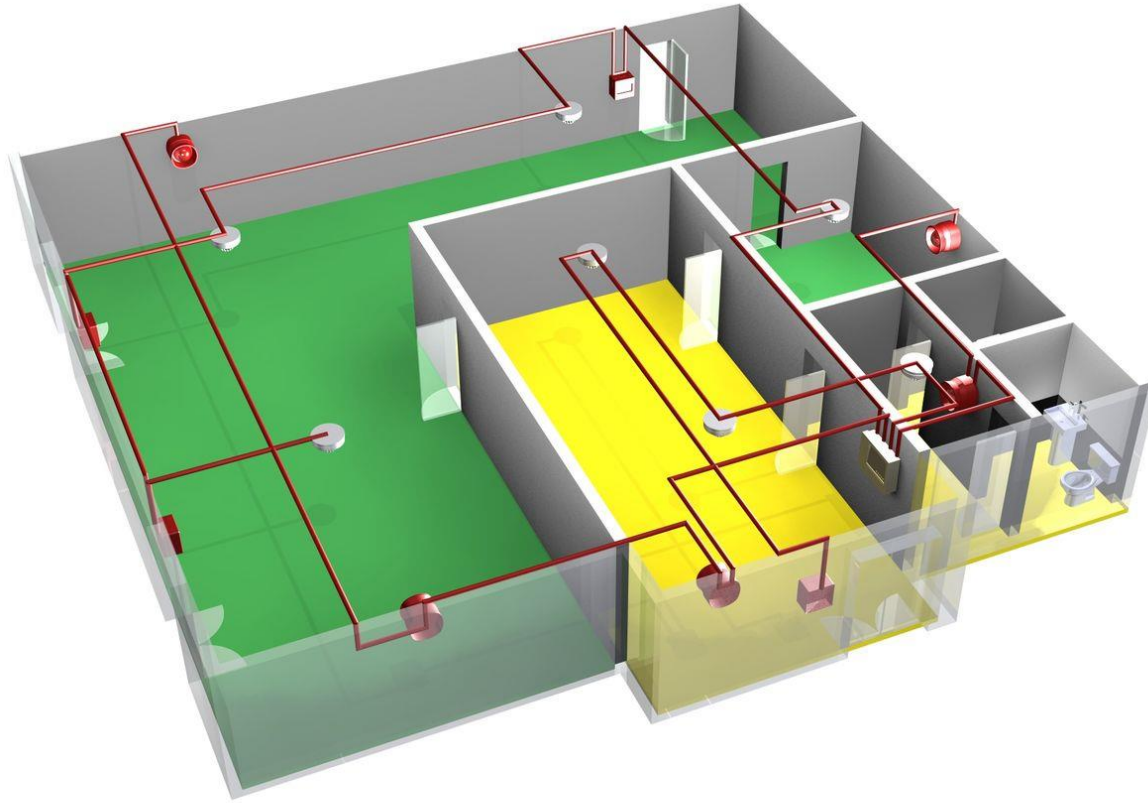

WET CHEMICAL
KITCHEN SUPPRESSION SYSTEMS

MILITARY VEHICLE
AUTOMATIC FIRE SUPPRESSION SYSTEMS

Product Range

FIRE ALARM SYSTEMS

F & G FIELD DEVICES
